Keeping Your Plant Equipment & Machinery Safe and Compliant...

INSPECTION TEST PRICE £135* +VAT

A LOLER inspection is a legal requirement for lifting equipment and applies to any situation where a load is lifted, lowered or suspended. Our certified CFTS trained staff carry out thorough examinations on **all makes of machinery.**

Does my Machinery need a LOLER?

The following machines / equipment / accessories are subject to a LOLER Examination:

Telehandlers | Forklifts | Tractor Loaders | Industrial Lift Trucks

To meet LOLER regulations it is the responsibility of a business to have **ALL** lifting equipment examined reguarly. The frequence of examination on lifting accessories and equipment used to carry people is every 6 months. Frequence for all other machinery is an Annual Inspection.

Book your examination test today and let us take a load off your mind!
